Company Profile

"Courageous Challenge, Innovation to The World"

About Us

MAKITECH is one of Japan's leading manufacturers specialized in **conveyor systems, logistics & distributions systems, construction & building materials and care assistive products.**

Based on abundant experiences and technologies accumulated throughout **over 70 years since 1946**, MAKITECH has developed a variety of products for the market.

Customers' needs are rapidly changing. Our mission is to **create products to accommodate customers' needs by keeping up with constantly changing market demands.**

Our Group

MAKITECH headquarters is located in **Nagoya, Japan** and we have 50+ offices and 10+ factories in Japan.

We also have group & partner companies overseas.

Vision

To organize technology and make it useful for nation, community and environment.

Mission

- *Customer satisfaction oriented*
- *Best quality product oriented*
- *Environment and social responsibility oriented*
- *Provide value added for all stakeholders*
- *Human resource development*

We develop products for more **reliability and efficiency to meet customers' demands** which evolve at all times.

Advantage of Automation

Automation is advantageous in many ways.
For example, Introducing automation of
manned transportation of cases from A to B in
your factory.

We can provide a solution with our
Autonomous Mobile Robot, Robot V 100 CV.

Transporter	Worker	AMR (Robot-V 100-CV)
Cost	\$50,000/year	\$100,000 (total) → Cost can be paid off in 2 years
Safety	Risk for injuries (fall)	No injury
Productivity	Fair & unstable	Efficient & stable
